

SHAMROCK SALUTE . . . Darrel Owen Warden and Theresa Crowley offer a salute to Community Chest contributors as well as St. Patrick on behalf of the Chest-supported International Institute which serves foreign born groups throughout the Los Angeles area.

Time for Fly Control Measures Arrives Health Officer Reports

By ROY O. GILBERT, M.D., County Health Officer

Since fly breeding season is just around the corner, now is the time to eliminate potential fly breeding places.

Aside from being a nuisance, the fly is a natural carrier of filth, and as a result, is always suspect as a potential disease spreading pest.

No one can say how many diseases are carried into homes each year by house flies, but it is probable that the lives of a considerable number of persons are lost annually as a result of fly-borne infections.

more than a dozen miles in one day.

GOOD SANITATION is still the most effective measure in controlling flies. A clean garbage can with a tight fitting lid offers little hospitality to a fly, nor does a yard which is kept free of animal wastes, fallen fruit, or untreated compost piles.

Community programs designed to eliminate more extensive breeding places should go hand in hand with control efforts of individual householders who are wise enough to "start at home." Now is the time to start.

A pamphlet on flies will be mailed to anyone who sends a card of request to the Los Angeles County Health Department, Division of Public Health Education, 241 North Figueroa St., Los Angeles 12, California.

Mumps Leads Torrance Reportable Diseases

Mumps was the password to statistical recognition for three persons in Torrance for the week ending March 5, according to county health department figures.

Only two persons made the Torrance list through scarlet fever, and one through measles.

Countywide, scarlet fever led the reportable disease parade with 690 cases, mumps trailed with 645, and measles with 477.

GOP Screening Committee Talks to Five Candidates

Five prospective Republican candidates for Congress sought their party's endorsement at a meeting held this week at El Camino College.

Sitting as a fact-finding committee, the 17th District Central Committee met with delegates from all Republican Clubs in the district, and heard bids from the following party members:

John V. Stansbury, industrial engineer, 7876 Truxton Ave., Westchester; Henry T. Coffee, electrical engineer, 6749 W. 87th Place, Westchester; Walter C. Dworschak, printer and labor relations advisor, 1548 W. 106th St., Los Angeles; Vincent L. Isham, realtor, 7340 W. 81st St., Westchester; and Richard L. Glasier, attorney, 16203 Arlington Ave., Gardena.

was adjourned until tomorrow at 8 p.m., when additional candidates will be heard.

According to Robert Gulliver, chairman of the Republican Central Committee for the 17th District, the convention will vote tomorrow on whether to endorse one of the candidates. If the convention votes to endorse a candidate, another vote will be taken to select that candidate.

Gulliver revealed that an all-out effort will be made to unseat Cecil King, Democratic incumbent, with a precinct by precinct campaign to get under way throughout the 17th Congressional District as soon as a candidate is selected.

AFTER EACH of the prospective candidates had outlined his position on national and foreign affairs, the meeting

Brownie Troop 2461

The February meeting of the Mother's Club of Brownie Troop 2461 was held the 29th at the home of Mrs. Betty Sanford.

Mrs. Judy Ackinson, was the guest for the evening. There were 19 mothers present.

The Chairman, Mrs. Annie Gull, presided and reported on the activities of the mothers for the last month.

Mrs. Pauline Marshall, troop leader, along with the Co-leader, Mrs. Nova Still told of the Brownie's doings for the month. At the last meeting the girls elected their officers for the year. They were: Pamala Holt, chairman; Patty Still, secretary; Becky Gull, treasurer; Janice Croskrey and Jill Dosey, welcoming committee; Laura Robertson, Debbie Decker, and Nancy Henson are the game committee.

The girls have three coming events that they are looking forward to: A skating

event in March, a cook-out during Easter vacation and a family all day affair at Marineland in May.

The leaders have six girls they are training now for their Tenderfoot so they can "fly up" in September to an intermediate troop.

On Arbor Day, March 7th, the girls took part in the tree planting services at Normandie Park in the Shoestring Area under the direction of Y. F. Hammit of the park. They sang some very appropriate songs under the direction of their leaders.

After all business was taken care of, an election of officers was held. Those elected to serve the coming year were:

chairman, Mrs. Annie Gull; treasurer of Brownies, Mrs. Irene Holt; treasurer of Mother's Club, Mrs. Jean Vincent; birthday chairman, Mrs. Veal Decker; and the representative from the Moose, Mrs. Joyce Clay.

Class Sees Chinatown

A field trip to Chinatown climaxed a unit of study on Asia in Keith Deeds' sixth and seventh grade class at Parkway Elementary School recently.

The class had a seven-week study of China, Japan, Russia, and India, with various projects and notebooks on the subjects. The trip gave them a chance to see many of the things they discussed at first hand.

Garden Checklist

- By California Association of Nurserymen
1. Wise rosarians will be out these days watching new growth in the rose garden. Aphids are the main thing to look for. Shoot them down before they get a foothold.
 2. Feeding Camellias is a post-bloom item on your gardener's checklist. Liquid Fish and an acid-type commercial fertilizer and iron chaelates are all used.
 3. Weed flower beds to conserve moisture and preserve appearance.
 4. Feed lawns under trees an extra helping of food to help them overcome competition from the tree roots.
 5. A container planting for the desk makes an unusual and welcome gift. They'll be at their best when weather's best if you plant them now.
